

BATHROOMS IN BLOOM

Summer definitely has arrived! Good weather certainly gives all of us a boost. Here's how to bring that feeling into your bathroom so that you can enjoy summertime every day.

AT THE VERY LEAST, you can ring the changes with the right towels, bathmats and accessories. Seasonal styling accents are popular tool amongst interior designers. This time of year, fresh flowers are another attractive touch.

Pantone's Colour of the Year, Ultra Violet is bold, and while it may not be everyone's cup-of-tea, there are ways of introducing accents into your bathroom that are right on trend without going overboard.

The good news is that for those of us who prefer something a little calmer, Pantone's supporting palettes are a perfect place to start.

There are four in total, providing plenty of scope for interiors. For a more

subtle, less full-on approach, take a look at Purple Haze. There's a timeless quality to the subtle blends and harmonies of these misty, smoky hues.

Use them with pretty pastels to bring a touch of summer into any space, especially alongside bright white bathroom fittings.

BATHED IN COLOUR

If you're lucky enough to have a cast iron bath, you can easily paint it a subtle colour to match the mood of your bathing space. Heritage's elegant cast iron baths have AA grade white ripple enamel, traditional ball and claw feet, and can be painted any colour. They're an excellent investment as each one comes with a lifetime guarantee.

BACKGROUND STORY

Simple backdrop changes can transform your bathroom. If you feel yours needs sprucing up then wallpaper or a fresh coat of emulsion can work wonders. Remember to follow your theme through with fresh flowers to underpin the season.

LOVELY LUSTRES

Start your day with some sparkle - we're now seeing lustre finishes making their way into bathroom fittings. The beauty is their light reflection qualities with

surfaces radiating soft sheens of light.

Utopia's new Lustre range does just that. Silky smooth surfaces, fabulous colour combinations and glass fascias oozing quality and style.

Fancy adding some gleam without too much expense? Changing the handles or knobs on your bathroom cupboards or units can really add character and style. Take these crystal ones for instance - they bounce light around really effectively especially on a sunny day.
