

# WILLBOND - EVERY LAST DETAIL PROVIDED

Lisa Jepson from **Willbond Bathroom Centres** looks at the importance of bathroom accessories.

**I**T can be easy to overlook accessories when revamping your bathroom, but it's often these finishing touches that can make your dream design come together.

Bathroom accessories, whether it be shelving, storage, towels or a statement mirror, can give clever functionality as well as co-ordinating seamlessly with other items and fixtures within the bathroom.

Midlands-based company Willbond Bathrooms has four showrooms across the region in Nottingham, Derby, Grantham and Chesterfield. The company has been designing and fitting quality bathrooms since 1896, and is expert in providing customers with their perfect design, no matter their taste or budget.

Lisa Jepson from Willbond Bathrooms said: "If you're thinking about refurbishing your bathroom this summer season, make sure you remember the final attention to detail with stylish accessories. They will help create visual harmony and make your bathroom a pleasure to use."

Here are Lisa's top tips on picking the right accessories for your bathroom:

## SENSIBLE STORAGE

Be practical and think about somewhere to hang your robe, a magnified mirror for applying your makeup and an imaginative

place to display fresh towels. This is as well as soap dispensers and electric toothbrush/shaving points - there's a wealth of good looking, practical solutions to choose from.

## MIRRORS

By reflecting light, the right mirror will enlarge any part of your bathroom, adding ambience and giving the illusion of more space. And like most household items these days, mirrors can now provide a choice of functions. The myriad of additional features include such wonders as heated de-mister pads, sensor-operated ambient lighting, digital clocks and Bluetooth speakers, making even the most humdrum of daily routines more fun and providing useful benefits.

## CLEVER SHELVING

Don't forget about space above shoulder height. Very often this isn't used to its full potential so make the most of it with wall units and open shelving. Adding a simple mirrored wall cabinet not only gives the illusion of space but also provides added functionality. Some units have internal cosmetic mirrors, shaver points, magnets for tweezers and scissors, make-up compartments as well as de-misters.

## COLOURFUL ACCESSORIES

Inject a splash of colour and personality into your bathroom by choosing brightly coloured towels or rugs. Try vibrant shades like hot plum and warm hues of deep purple or even bright citrus lime green or tangy orange - these colours promote warmth and zest and will bring any sleek white contemporary bathroom to life.
