

Reflecting *the* best

Creating your dream bathroom goes beyond simply choosing the right bath, shower, basin and WC. Considering the wider decor is important, and an integral part of the overall look of the room is the choice of mirror.

By reflecting light, the right mirror will enlarge any part of the room, no matter how small it is, adding ambience and giving the illusion of more space.

They also make the most of wallspace above shoulder height, which often isn't used to its full potential. Mirrored wall units, for instance, will not only brighten the room, but also provide additional functionality. Some units come complete with internal cosmetic mirrors, shaver points, magnets for tweezers and scissors and make-up compartments.

Like most household items these days, mirrors often provide a choice of functions. The myriad of additional features include such wonders as heated de-mister pads, sensor-operated ambient lighting, digital clocks and even Bluetooth speakers, making even the most humdrum of daily routines more fun and providing some really useful benefits.

Lisa Jepson, director at Willbond Bathroom Centres, is a bathrooms expert with 30 years' experience in the field. Always on top of the latest bathroom trends, Lisa recommends three mirrored items that will enhance any bathroom:

- Ornate Heritage Mirrors – at home in any traditional or contemporary bathroom, with prices starting from £137
- Stunning Globe steam free backlit mirror – £220
- Encore mirror with Bluetooth connectivity, superior integrated stereo system, LED backlighting with touch sensitive controls and de-mister pad – £253
